Product Description

HuntVe 4x4 Game Changer™ Electric Utility Vehicle

The all-new HuntVe 4x4 Game Changer™ is the planet's most dynamic electric 4x4 UTV. With dual direct drive motors, no single-motor electric UTV can compete with the smooth power that comes from this 72-volt stealth machine.

Forget for a moment the fact that the 38 HP available is more torque than almost all gasoline-powered UTVs have in this size category - the ride of the double wishbone 4-wheel independent suspension, 1200 lb hauling capacity, and the best in class off-road range combines to create the ultimate driving machine.
